

How to make

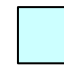

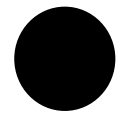

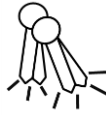

a 2D bus

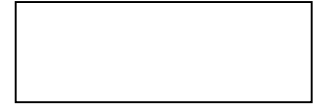

with wheels that move

Things you need:

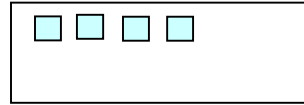

-  a large cardboard rectangle 
-  paper squares   and a rectangle 
-  2 cardboard circles  
-  2 split pins 
-  crayons  and glue 

What to do

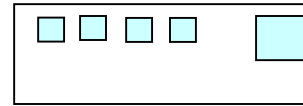

1. Start with the large cardboard rectangle.

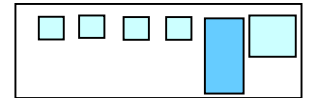

2.  Put on the small squares for the windows.

3.  Put on the large square for the driver's window.

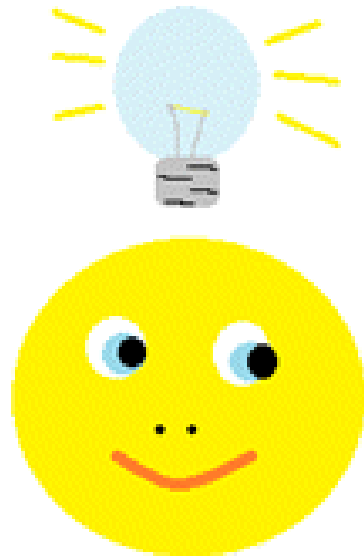

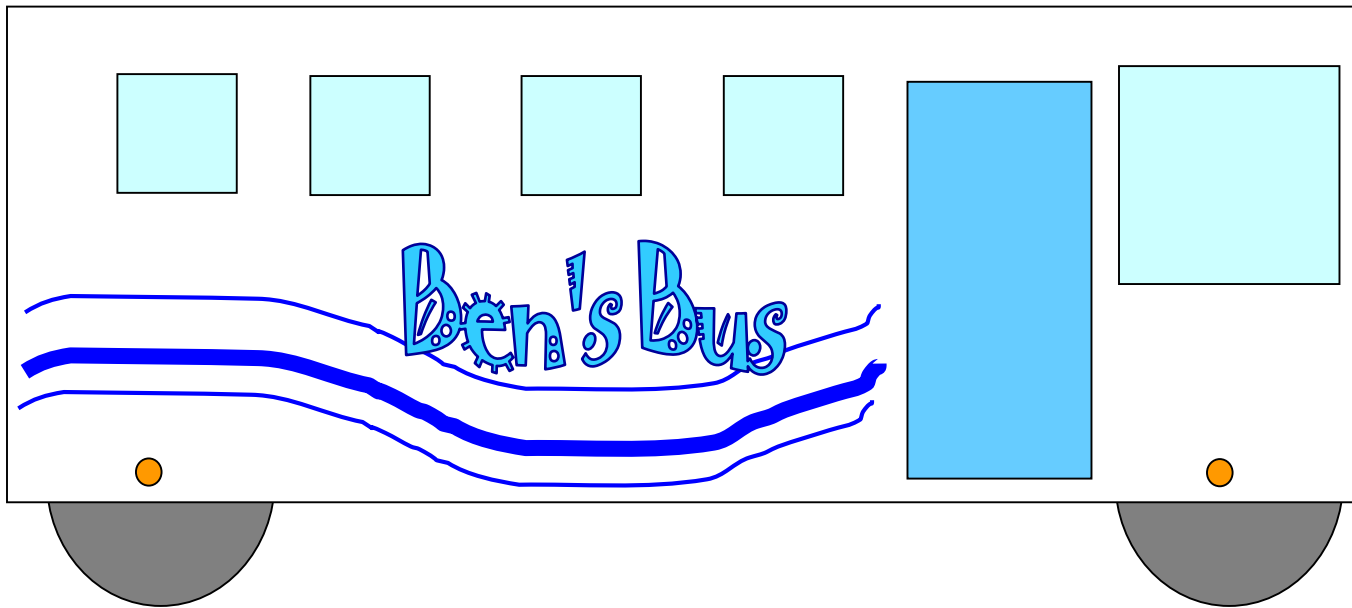

4.  Put on the rectangle for the door.

5.  Put on the circles for the wheels.

6.  Draw a design on your bus and write your name.

You could draw people in the bus windows, or cut them from magazines and paste them in.
